Project Name: Design and Construction of Watermain on Erie Street
Project No: 2022-01

Dear Port Colborne Resident,

Please be advised the City has retained Stonecast Contracting Limited for the construction of the new watermain. Prior to any construction, OZA Inspections Ltd. will be conducting a survey of buildings/structures determined in close proximity to the watermain to verify and document existing conditions.

Please know the inspection may require interior and/or exterior inspection. The City has verified all OZA Inspectors are fully vaccinated and will be required to wear a mask and/or face shield for all interior inspections and in-person communication/interaction.

The City of Port Colborne recognizes that construction is an inconvenience to residents and business owners. Every effort will be made to minimize any inconvenience to residents and to carry out the work with as few interruptions to services as possible. We thank-you for your patience. Your cooperation will be greatly appreciated.

If you have any questions, or require further information, please contact Eliza Durant, Civil Technologist at eliza.durant@portcolborne.ca or 905-835-2900 x 215. More information about this project, including notices and updates can also be found by visiting our website.

Sincerely,

Eliza Durant,
City Representative
