November 20, 2023

Vale Health and Wellness Centre gymnasium and fitness floor closure

The City of Port Colborne is progressing with the final stages associated with the rehabilitation of the Vale Health and Wellness Centre. One of these tasks is to re-coat sections of the ceiling with spray foam insulation. For public safety, this will require the closure of the following amenities while construction takes place:

- The **fitness floor** will be closed **November 23**.
- The **gymnasium** will be closed **November 23 and 24**.

The YMCA will be communicating to those who may have scheduled classes in the gymnasium on these dates to be rescheduled or relocated.

All other amenities at the Vale Health and Wellness Center will remain open during this time.

The City of Port Colborne thanks residents for their patience and cooperation as we complete these important infrastructure improvements.
