

Section of HWY 58 closed to southbound traffic until end of August 2021

June 14, 2021

Starting Thursday, June 17, 2021, the bridge over the Canadian Pacific (CP) Railway on HWY 58, immediately south of HWY 58A/Townline Tunnel Road, is to undergo rehabilitation and is expected to be completed the end of August. During this time, the bridge will be limited to northbound traffic only. Southbound traffic coming from Prince Charles Drive will be rerouted to HWY 140 and detour signs will be posted. Temporary traffic lights have been installed at the intersection of Netherby and HWY 140 to help improve traffic flow for the detour route. We appreciate your patience and cooperation.

Refer to the map below for exact location:

- Detour for southbound traffic in red
- Northbound traffic highlighted in green
