

Online COVID-19 vaccination reporting for out of province records now available

July 1, 2021

All individuals are responsible for providing accurate, up-to-date vaccination information. Niagara Region Public Health has recently streamlined this process and information can be submitted on their [website](#).

All information collected by Niagara Region Public Health's secure form is confidential and will not be shared. Public Health maintains COVID-19 immunization records for all residents in a provincial database system.

Keep your original immunization document

It is very important that you keep your original COVID-19 immunization record stored in a safe location with other valuable documents such as birth certificates, health cards and passports.

Vaccination record

Vaccination records take up to five days to process. Once completed, log onto [Ontario Health](#) to print your vaccine receipt.

If you have any question or concerns, and would like to talk to a public health professional, [call the COVID-19 Info-line](#).

A message from Niagara Region Public Health.
