

Watermain Isolation Thursday, May 20, 2021

May 18, 2021

The City of Port Colborne will be performing a trial watermain isolation on **Thursday, May 20, 2021 beginning at approximately 2 a.m. and ending by 4 a.m.**

During this trial isolation, the following properties will not have water:

- 569 Main Street West
- 575 Main Street West
- 599 Main Street West

Additionally, depending upon the results of the trial isolation, the following properties **may** also be without water:

- 611 Main Street West
- 615 Main Street West
- 629 Main Street West
- 633 Main Street West
- 639 Main Street West
- 650 Main Street West
- 658 Main Street West
- 664 Main Street West
- 676 Main Street West

After water service has been restored, residents may experience some air in their water lines and/or discoloured water. Please run an exterior cold water tap, or a large indoor cold water tap, such as a utility sink, until the water runs clear. This may take 10-15 minutes and will likely use less than 1m³ (or 1,000 litres) of water. If water does not clear up after flushing for 10-15 minutes, please call the Engineering and Operations Centre at 905-835-5079.

This trial isolation is required in order to schedule a future shut down to move a fire hydrant, and we appreciate your patience and understanding.

Questions? Please call the Engineering and Operations Centre at 905-835-5079
